

Saba Villigen 6-3DE, 1956

This radio, built in 1956, is an example of the Saba low end production. The radio has four bands, including FM, treble and bass controls and a knob (Peil) to rotate the AM ferrite rod antenna. Three speakers, one large on the front and two smaller on each side.

Seven tubes: ECC85, ECH81, EF89, EABC80, EL84, EM80, EZ80.

Keep them alive!
