

## 3F22-TA / 5771 - Transmitting Triode, Water-Cooled

- Click on images to enlarge.

Water-cooled and forced-air-cooled transmitting triode. Similar to [3F20-TA](#) but with folded anode and higher frequency limits. Thoriated-tungsten filamentary cathode. This Fivre code is equivalent to the industry standard [5771](#). Also equivalent to Machlett ML-356.

- 3.3 kg weight.
- 22.5 kw anode dissipation
- 7.5 volts a 170 amps filament
- 25 MHz full ratings, up to 100 MHz with reduced ratings.

Data for [3F22-TA](#).
