

5TA-75 – Vacuum Relay

SPDT HV vacuum switch. Operates with external coil.

Contact ratings: 5 kV, up to 1.5A DC; 20 kV peak RF, 7.5A at 15 MHz or 5A at 30MHz, handling potential.

This sample was similar to [R1](#) by Penta Lab. and to Eimac [VS2](#).

Used in some transmitters, as the Collins ART-13, and in radar gears.
