

7391 – UHF/SHF Cermet Triode

Miniature planar cermet triode designed to operate as low-power local oscillator in the C-band, up to 6000 MHz.

2.25 W maximum plate dissipation, gain 62.

65 mW CW output power at 5400 MHz.

6.3 V at 0.38 A heater.

General Electric, June 13, 1960, RMA record [2841](#).
