

95105 / EL42 – Audio Power Amplifier

Few info available on this code, but it is equivalent to EL42. Same Philips short code, M5. Probably a developmental early code or maybe a special screened version.

Power pentode, rimlock base, designed to operate as power amplifier in car radio sets. 2.8 W typical output power on 9 K Ω load, with 225 V, 26 mA anode supply and 360 ohms cathode resistor.

6.3 V at 0.2 A heater supply.
