

ATL 2-1 - Transmitting Triode, Forced-Air-Cooled

- Click on the image to enlarge.

Brown Boveri forced-air-cooled transmitting triode. Integral finned radiator.

2 kw max anode dissipation. 5 kV anode voltage, 1.6 A max cathode emission.
Mu 22. 70 MHz full ratings, up to 150 MHz at reduced ratings.

12 volts at 50 amps filament. 3 kg weight.
