

## CV-11 United Electronics – Transmitting Triode

Improved variant of the 211 'fifty watter'. Thoriated-tungsten filament, graphite anode. 4-pin bayonet jumbo base. Rated for 65 W plate dissipation. Proposed for diathermy and RF heating.

10 V at 3.5 A filament.

1500 V max plate voltage

150 mA max plate current

30 MHz max frequency full ratings, up to 85 MHz at reduced ratings.
