

DH3-91 – Miniaturized Cathode Ray Tube

Miniaturized CRT for oscilloscope use. 28mm diameter screen, green-blue fluorescence, short persistence. Loktal 8-pin base.

Equivalent to 1CP31 and accepted as [CV2302](#).

Up to 1000V accelerating voltage, 500 volts typical. 6.3 volts at 0.55 amps heater.

The sample in the two last pictures shows quite different electrodes inside.
