

## ET-102 - CW Power Klystron

CW power klystron, liquid-cooled, tunable from 9.9 to 10.3 GHz. 50 to 100 W typical output power. 10 kV collector voltage at 100 mA beam current.

250 kHz / °C nominal temperature coefficient.

3.3 V at 6.0 A heater.

Equivalent to Raytheon QKK1102. License built by EITel, Palermo Italy.
