

## GV6A-Series – HV Corona Voltage Regulators

HV corona voltage regulators.

### **GV6A-700**

700V DC nominal voltage. Non standard voltage, current from 50 to 875 microamps, by interpolation from the values for GV6A-600 and GV6A-800.

### **GV6A-1300**

1300V DC nominal voltage. Non standard voltage, current from 50 to 1400 microamps, by interpolation from the values for GV6A-1200 and GV6A-1400.
