

M558 - X-Band Pulse Magnetron

- Click to enlarge

X-band pulse magnetron, similar to [2J42](#), mainly intended for marine radar sets. M558 is supplied without magnet and waveguide transition, probably as replaceable part of the entire magnetron assembly.

Fixed frequency, 9.375 ± 30 MHz. 5.5 kV at 4.5 A input pulses, 7 to 8 kW typical output pulses. 6.3 V at 0.6 A heater, small bayonet base.
