

## PT5069 – Magnetron (BS CECC 36001-003)

Small British magnetron probably intended for use in beacons operating in the X-band. Integral magnet, waveguide flanged output.

Thorn/EMI - Varian Ltd.

8.785 to 8.830 MHz. 60 W max mean input, 19 W min output pulse power.  
6  $\mu$ s max pulse duration.

Similar to [PT5027](#).
