

U15 MOV - Half-wave Vacuum Rectifier

Rare Marconi-Osram Valve half-wave vacuum rectifier, prototype of [NU13A](#) with released mechanical specs. Accepted as [CV1265](#), in the ruggedized military version, or as CV3747.

L4 base. Directly heated, oxide-coated cathode.

1.5 kV max rms plate voltage, 0.25 amps D.C. max.

6 volts at 2 amps filament.
