

1616 – Half-Wave Vacuum Rectifier

Quick heating vacuum rectifier. UX base, stepped T-16 bulb, top cap. Also known as 38267, VT-266 and CV2679. The samples in the picture above have graphite anode.

Looks quite similar to 836.

6 kV PIV, 130 mA.

Filament 2.5 V at 5.0 A.

RCA, September 1943, RMA record [347A](#) / [347B](#).
