

TD03-10 – UHF Rocket Planar Triode

Disc seal planar triode without internal feedback, intended for use in common-grid, grounded-anode coaxial oscillators or as power amplifier.

6.3V at 0.4A heater. 250V at 20mA anode, with -3.5V grid bias. 6.0 mA/V G_m , gain 30. Up to 3 GHz operating frequency.

[TD03-10](#) is the Mullard equivalent to MOV [DET22](#) and to [EC55](#).
